

Numatic JVP180A1

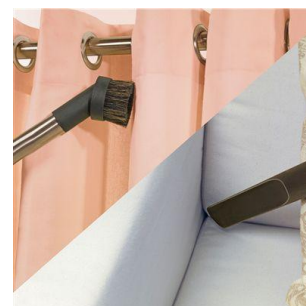

James is the frugal member of the Numatic family, giving professional cleaning and great value. The plugged cable means replacing the mains cable could not be easier. Cable storage is also taken care of with the on-board cable storage. Professional specification brings a 10m power cable and 8L drum capacity, keeping you cleaning for longer. When he's finished James packs away nicely with on-board wand and floor-tool storage.

- A Class - Energy efficient A rated.
- Wand Docking - Convenient on-board wand docking system.
